Redefine the user experience

The interior of an elevator significantly contributes to the overall architectural ambiance of a building. Similar to any other enclosed space, an elevator that is user-friendly, adorned with appealing finishes, adaptable color schemes, intelligent lighting, a harmonious soundscape, and digital media content has the potential to elevate the stature of your building.

We have created predefined elevator interior ranges for you to choose from or you can always mix and match between ranges to find the optimal solution.

Build greener

Materials are compliant with LEED low-emitting materials, BREEAM indoor air quality and Nordic Swan material precondition requirements.

Pleasant continuity through spaces

Durable surfaces with enhanced versatility provide significant value across various building types, spanning from residential homes to retail, offices, and high-rise structures. With a diverse range of elements that can be easily interchanged, there's ample opportunity for mix-and-match customization to discover the optimal solution for each space.

Elegant

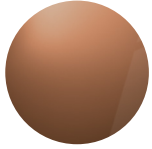

Authentic and true interiors

The finest materials and highly versatile accessories cater to the needs of sophisticated, intelligent, and environmentally conscious spaces, including high-rise structures, corporate offices, and premium residential developments. These solutions inspire architects, designers, investors, and developers striving to meet lofty standards in their projects, even if full customization isn't required.

Mix & match

Customized to your needs

Couldn't find what you're looking for in one range? Don't worry, you're still free to mix & match materials and accessories freely.

Build smarter

Take advantage of our new planning tools to help you save time, make the right decisions, and plan your elevator car interior down to the very last detail.

Scan the QR code to
try the KONE Studio

www.kone.ae

A man and a young girl are smiling and looking upwards in a digital experience car. The background is dark with falling blue and purple confetti. The man is wearing a grey blazer over a brown turtleneck, and the girl is wearing a dark top. The scene is illuminated with blue and purple light.

KONE Digital Experience Cars

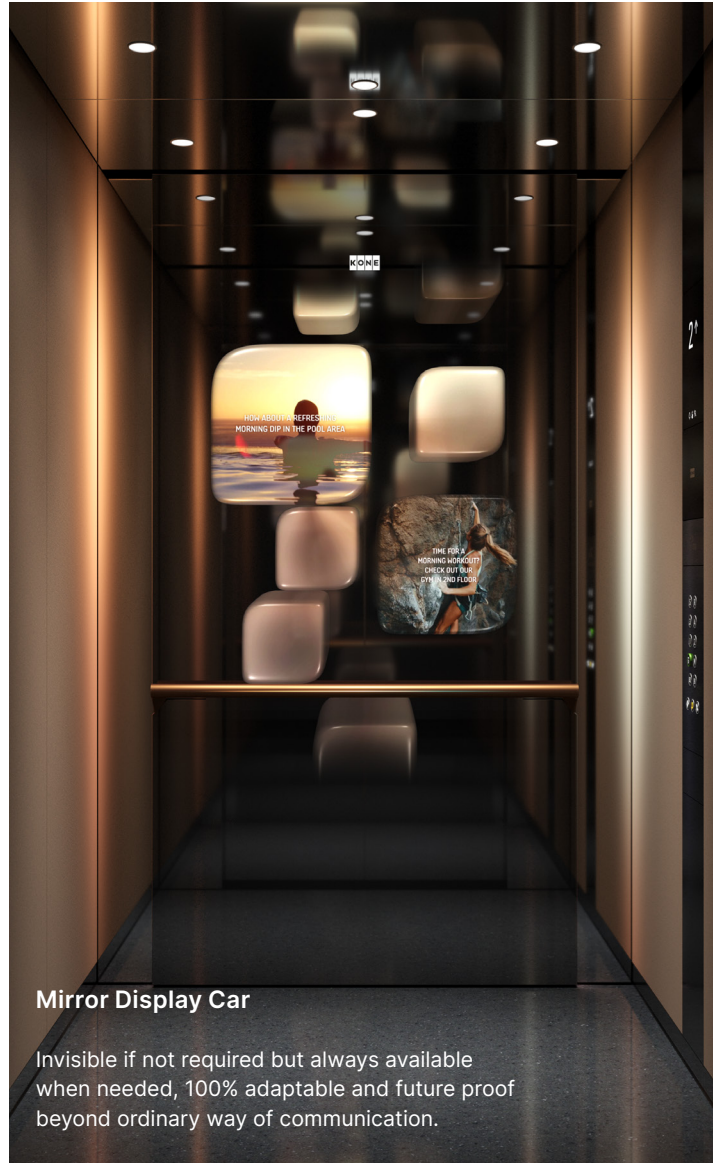

Sometimes the elevator ride
is more than the destination

Enter a whole new world of multi-sensory experiences. With dynamic sound, vivid colors, and immersive themes, the KONE Digital Experience Car can be tailored to capture your attention or sooth your senses – create a unique journey for people in your building.

Aurora Car

Hybrid experience that is equally digital and physical, created through technology, driven by human needs.

Mirror Display Car

Invisible if not required but always available when needed, 100% adaptable and future proof beyond ordinary way of communication.

Digital Experience Car

Create a transformative choreographed storytelling experience that offers guests a memorable and unique immersive and multi-sensory experience.

A window of opportunity

KONE Scenic elevator solutions combine proven technology and inspiring car designs to create elevators that are attractive and spacious, and which give you the opportunity to showcase your building.

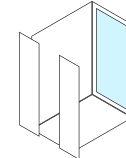

Scenic elevators include glass car walls and glass hoistway, and are used in a wide variety of environments, from office buildings, hotels, and retail centers to transportation hubs and cruise ships.
